

1. Printables at the ready?

- You might like to start with a **BIG QUIZ**. Forty multi-choice questions to give you an indication of where your children are in the understanding of the Bible. It will be important to set expectations low - they'll need to be confident enough to guess and risk being wrong. You might like to finish with the same **BIG QUIZ** to see how they've improved.
- Some of our activities would have been tricky without a printed sheet or two. Please would you print one copy of the **Taboo Cards** (and cut them into 4) for video 4 - and a copy of each of the seven **Greetings Cards** for video 6?
- We've sent you a pack of OT MINI Workmaps, so these don't actually need printing by you. There is also a reminder to complete these at the end of each video.

2. Please encourage your children to join in - even before you press play

- In the first minute Zoe will ask everyone to shout a word.
- Paul will start the first story by playing a short stand-up sit-down game.
- We will use handsigns to help the children learn. There will be a small circular picture in the bottom right hand corner for every sign that needs repeating.
- If you could encourage daily practice of the storyline handsigns it will really cement the knowledge for your children.

*If we could only
ask one thing
from you - this
would be it*

3. Be ready to press pause

- At times through each video we usually suggest you take time for a **pause** or two. We haven't left long gaps - hopefully long enough for you to hit pause though :) Feel free to do the **activity** we've suggested - or ask a question of your own.
- Zoe asks a **Random Question** during each video. They're just a bit of fun, so it's entirely your call. Are they just rhetorical or would pausing help?

4. Extra info for the teacher

- The **BIG QUIZ** has an answer sheet too :)
- **Stories in a Sentence** - Asking children to write their own summaries of each lesson can be a great consolidation activity, so we thought you'd appreciate a version for you.
- **Teacher Overviews** - This outline helps you know where we're going and gives you a question or two for a plenary.
- **40 Circle Images** - You can use these for a big classroom display - or each child could write summary sentences for the 40 stories. This would take a fair bit of printing, but would give a great little Bible summary of their own. They could even design a front and back cover and have their own Bible summary book.

5. Could you help us?

- We will send you a very short email, a couple of weeks after you've asked for the video links. Please would you take 2 minutes to let us know **what we've done well** - and **what we could do better**. This will help as we consider how to produce NT MINI videos for next September.
- Please would you send us any jokes, pictures, photos of displays etc. to mail@Bible.org.uk for our encouragement?

All printable materials and videos for OT MINI are free for you to use within your school, but not for other purposes.

Walk Through the Bible, OT MINI, is an educational resource, solely for use in Primary schools with Upper Key Stage 2 children.
