

# Details of our Live Event programmes

# 1

For over 40 years Walk Through the Bible Instructors have been teaching the Big Picture of the Bible in churches all over the world. These **interactive** programmes for the Old and New Testaments were developed by a Theological Lecturer called Bruce Wilkinson. He realised that if his students didn't know the storyline of the Bible how could they ever dig deeper without losing their way? Bruce began teaching the storyline of the whole Bible by using almost 200 innovative handsigns to aide his students memories. Quickly he separated the OT and the NT, and reduced the handsigns to 77 each. When he moved on from Walk Through the Bible in 2002 he was still advocating a further reduction, to the "irreducible minimum". The 77 were reduced to 40 in 2014, just enough details to see the whole storyline of the Bible. Our aim however has never been just to teach the storyline of the Bible, we aim to **inspire** people to see the **Big Picture**, then dig deeper.

All our training courses begin by providing the framework to teach **OT MINI**
